Esquadria de Alumínio

A esquadria de alumínio é indicada para a projeção de portas, janelas, venezianas, portões, divisões internas e fechamento de vãos diversos. São populares por serem fabricadas de um material versátil e duradouro, o que transforma a esquadria em alumínio em um produto de ótimo custo x benefício.

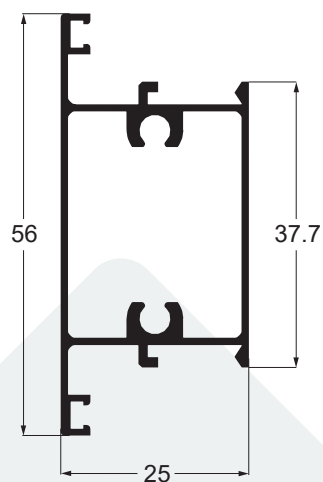

Tipo de esquadria está relacionada ao material de fabricação, tendo em vista que o alumínio oferece ótimo desempenho em quesitos como:

- Durabilidade
- Resistência (inclusive ferrugem e corrosão)
- Versatilidade
- Estética
- Isolamento acústico
- Baixo custo de manutenção
- Valorização do imóvel
